INTERNSHIP

- Completed "FULL STACK WEB DEVELOPMENT" Training Course as C2C internship in Tap Academy, Bengaluru.

- Gained Hands-on experience in Front-end and backend technologies, along with Database management using MySQL.

PROFESSIONAL SUMMARY

Motivated and fast-learning Engineering graduate with a Bachelor's degree in EEE. Proficient in foundational JAVA programming language and web development. Known for adaptability, quick learning, and the ability to work both independently and as part of a team. Seeking a Full-Stack Developer role to contribute to building scalable applications and enhance Technical skills in both frontend and backend technologies.

PROJECTS

1. Food Delivery Web Application [DAO Design Pattern]

- I developed a food delivery Web Application using the DAO design pattern, JDBC, Servlets, JSP, and deployed it on Apache Tomcat Server with a MySQL database as the backend.

- *Key Features*:
  (i) User Registration and Login Page,
  (ii) Browse Restaurants and Menus,
  (iii) Add to Cart, Check Out and Place Orders.

2. Mini Project: Personal Portfolio Website [HTML , CSS]

- The site includes a navigation bar (Home, Projects, Skills, Contact), a profile image, and a prominent "View Resume" button for easy access. Sections are well-structured to display skills, projects, and contact details clearly. The design focuses on simplicity, responsiveness, and readability to create a better user engagement.

- *Key Features*:
  (i) Interactive and Responsive Design,
  (ii) Navigation System and Clean UI,
  (iii) Technical skills Cards and Contact Integration.
